

The LIFE SUPERHERO project aims to promote the use of **ventilated permeable roofs (VPR)** as sustainable and cost-effective “**passive cooling**” technology able to increase building occupants’ and cities summer comfort and decrease buildings’ energy and green-house gasses emissions.

Through collaborative effort among producers and their associations, research centers, municipalities, social housing, and tenants, LIFE SUPERHERO aims to overcome existing policy/legislative/awareness barriers to properly spread the adoption of VPR and the “HEROTILE-based roof”. The 8th Newsletter of the LIFE SUPERHERO Project

LIFE SUPERHERO team will be happy to send all contents two times per year, for the next 5 years, to everyone should be interested (to subscribe, [click here!](#)). The aim of this project is to create a LIFE SUPERHERO community, able to share all project updates.

The Newsletter is expected to be the main tool to disseminate the best practices concerning pitched roofs and roof tiles technologies, at the national and international level. The Newsletter will involve contents about *ongoing activities, technical interviews and scientific on-depth analysis* concerning LIFE SUPERHERO Project; it will be published in May and November. All contents will be available via mail, by subscription on [LIFE SUPERHERO Project website](#); on LIFE SUPERHERO [Facebook](#), [X \(Twitter\)](#) and [LinkedIn](#) homepages.

Webinar: Roofs with brick finishing layers

Formazione.architettiroma.it, in collaboration with Confindustria Ceramica, organized a webinar on the main performance, characteristics and functions of brick roofing coverings.

ORDINE DEGLI ARCHITETTI FABBRICATORI PAESAGGISTI E CONSERVATORI DI ROMA E PROVINCIA

LIFE SUPERHERO at SAIE and CERSAIE 2024

LIFE SUPERHERO participated to two important fairs in the construction sector: during [SAIE 2024](#) in Bologna, Eng. Arianna Latini of the Polytechnic University of Marche presented the project in the event on "Public and Social Residential Building" promoted by Costruire in Laterizio while during [CERSAIE 2024](#), the project poster was shown inside the Centro Ceramico's booth for the entire duration of the fair.
